

# COMMISSIONING AND INTEGRATED TESTING

**RJ Bartlett Engineering Ltd** provides commissioning and integrated systems testing services for life and fire safety systems for different types of occupancies. Working together with the design team and the construction team, our staff will review the design and construction documents and prepare a commissioning plan that will become the basis of the project.

**RJ Bartlett Engineering Ltd** provides commissioning and integrated systems testing services for the following:

- Fire Detection and Alarm
- Emergency Voice Communication
- Emergency Lighting and Power
- Fire Suppression (including sprinkler, standpipe, foam, carbon dioxide, dry chemical, and wet chemical)
- Smoke Management (including smoke control and smoke venting)
- Access Control Systems

An understanding of the requirements of the applicable codes and standards enables our team to provide a comprehensive approach to commissioning life and fire safety systems.

Involvement in committees dedicated to the development of National standards for commissioning and integrated systems testing provide staff with an understanding of the origin and intent of these provisions. Our commissioning plans are developed to meet the requirements of applicable codes and standards.

# RJ Bartlett Engineering Ltd

**FIRE PROTECTION IS OUR BUSINESS**

**RJ Bartlett Engineering Ltd** has been providing fire protection engineering solutions since 1987.

Services are provided for clients and projects throughout Canada, several US states, Bermuda, the Caribbean, and Europe from its offices in Fredericton, NB and Halifax, NS.

**RJ Bartlett Engineering Ltd** specializes in fire protection engineering, building code consulting, and investigative engineering. Capabilities include design of fire protection systems, building and fire code consulting, development of alternative solutions, fire hazard analysis, fire safety planning, commissioning, and investigative engineering.

The goal of **RJ Bartlett Engineering Ltd** on any project is to ensure that the overall design meets both the fire protection and life safety objectives of the Codes and Standards as well as the requirements of the client/owner from both an economic and design standpoint.

Our Quality Management System (QMS) for all levels of the organization enables our commitment to a program of continuous improvement. This commitment to quality supports our goal of remaining an industry leader in providing quality fire protection engineering and building code consulting services.
